

The background of the advertisement features a Siemens SIMATIC S7-1200 PLC rack with various modules. A central CPU module is labeled 'PLC 1 CPU 1214C'. To the right, there are communication modules labeled 'AS-i_1', 'PROFIBUS 1', and 'PROFINET_2'. The background also shows a computer screen with the Siemens TIA Portal software interface, displaying project files and network diagrams. The Siemens logo and slogan 'Ingenuity for life' are in the top left corner.

Ingenuity for life

It's never been easier
to get started!

SIMATIC S7-1200 Starter Kits

[siemens.com/s7-1200-starterkits](https://www.siemens.com/s7-1200-starterkits)

SIMATIC S7-1200 Starter Kits make it quick and easy to implement simple automation tasks. The five packages on offer allow flexible and efficient implementation of different tasks, from engineering with the TIA Portal software or the integration of HMI Panels, to solutions for fail-safe applications. In addition, there are further tools and aids to get you started:

Automation configuration made easy

The TIA Selection Tool makes it a breeze to choose a Starter Kit and configure your automation system. You can effortlessly select, configure and order devices for Totally Integrated Automation. Simply start the TIA Selection Tool in the Siemens Industry Mall or download a ZIP file for local installation:

Discover engineering efficiency

The TIA Portal engineering software makes it child's play to implement automation tasks. Learn the fundamental principles on the basis of practical examples: A host of informative web tutorials is available and each shows you in less than 10 minutes how to implement automation tasks – quickly and easily.

Discover how simple it is to save engineering time in your daily work:
